# SINGLE-STREAM CURBSIDE RECYCLING PROGRAM

Recycling is easier than ever for unincorporated Lake County residents with new recycling carts. The County is providing these new carts as part of the residential curbside collection program coming October 2014. The new carts fit more recyclables than your current recycling bin, which will help to reduce waste volume. As waste volume is reduced and recycling increases, the County is able to keep garbage out of landfills and help sustain the environment for future generations.

Single-stream recycling allows all items to be placed in one cart container, without the need to sort.

## WHAT CAN I RECYCLE?
